

Ph. Eur. reference spectrum of latanoprost

Batch 1

1. Identification

Catalogue code: **Y0002243**

2. Scientific Information

2.1 Intended use

Established for use with the monograph(s): **2230**

This official Reference Spectrum is to be used with the currently valid European Pharmacopoeia monograph(s) and/or general chapter(s) describing its suitable use.

Further information about the Reference Standards is available in the on-line catalogue currently at <http://crs.edqm.eu>.

2.2. Preparation

The IR spectrum was recorded using 1 drop of the substance in the form of a film between two KBr plates.

3. Adoption

The suitability for intended use has been officially adopted by the European Pharmacopoeia Commission.

4. Signature

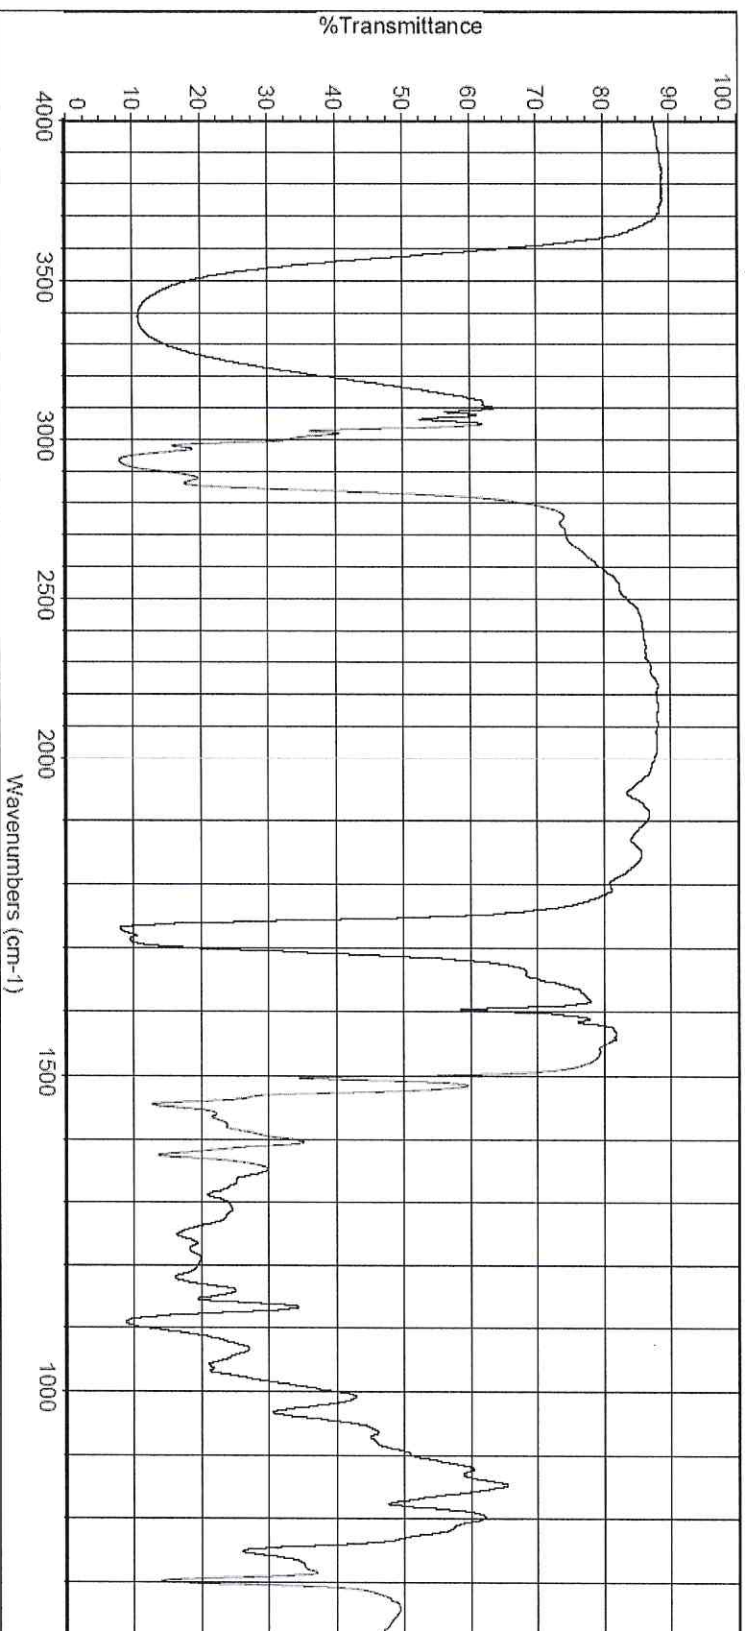

This document is approved by:

Ms Caroline Offerlé
Head of the Quality and Risk Management Section

EUROPEAN DIRECTORATE FOR THE QUALITY OF MEDICINES

Collection time: Thu Apr 30 09:49:00 2020 (GMT+02:00)

Study number : 14165_P12241

Sample name : LATANOPROST CRS 1
Sample number : EL404765
Preparation : ONE DROP BETWEEN TWO KBr PLATES
Sample pre treatment: N/A
Operator : GLE
% Transmittance at 2000 cm-1 87.51949
Most intense band in T% 7.77055
Most intense band in cm-1 2932.71582
