

SECTION 1: Identification of the substance/mixture and of the company/undertaking**- 1.1 Product identifier****- Trade name: Levothyroxine sodium (BP, USAN, USP)****- Article number:**

9106700

9108800

- Synonyms:

Levothyroxine sodium x hydrate

Thyroxine sodium (P.Cx.)

Sodium salt of L-3[4-(4-Hydroxy-3,5-diodophenoxy)-3,5-diodophenyl]alanine (WHO)

L-Thyroxine sodium salt -x- hydrate

Sodium levothyroxine

Sodium O-(4-hydroxy-3,5-diodophenyl)-3,5-diodo-L-tyrosinehydrate

3,3',5,5'-Tetraiodo-L-thyroninemonosodium salthydrate

- EC number:

685-634-1

- Registration number

A registration number is not available for this substance

as the substance or its use are exempted from registration according to Article 2 REACH Regulation (EC) No. 1907/2006,

the annual tonnage does not require a registration

or the registration is envisaged for a later registration deadline.

- 1.2 Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

- Application of the substance / the mixture Active pharmaceutical ingredients**- 1.3 Details of the supplier of the safety data sheet****- Manufacturer/Supplier:**

EXCELLA GmbH & Co. KG

Nürnberg Str. 12

D-90537 Feucht

Tel.: +49 (0) 9128/404 0

Germany

Fax +49(0)9128 404581

E-mail: info.excella@fareva.com

- Informing department: Abteilung Chemische Produktion**- 1.4 Emergency telephone number:**

EXCELLA GmbH

Nürnberg Str. 12

D-90537 Feucht

Tel. +49(0)9128/404 0

Germany

(During normal business hours)

e-mail: info.excella@fareva.com

SECTION 2: Hazards identification**- 2.1 Classification of the substance or mixture****- Classification according to Regulation (EC) No 1272/2008**

GHS08 health hazard

Repr. 2 H361 Suspected of damaging fertility or the unborn child.

STOT RE 1 H372 Causes damage to organs through prolonged or repeated exposure.

- 2.2 Label elements**- Labelling according to Regulation (EC) No 1272/2008**

The substance is classified and labelled according to the CLP regulation.

(Contd. on page 2)

Trade name: Levothyroxine sodium (BP, USAN, USP)

(Contd. of page 1)

- Hazard pictograms

GHS08

- Signal word Danger

- Hazard statements

H361 Suspected of damaging fertility or the unborn child.

H372 Causes damage to organs through prolonged or repeated exposure.

- Precautionary statements

P201 Obtain special instructions before use.

P260 Do not breathe dust/fume/gas/mist/vapours/spray.

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/clinic

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P361 Take off immediately all contaminated clothing.

P405 Store locked up.

- 2.3 Other hazards

- Results of PBT and vPvB assessment

- **PBT:** Not applicable.

- **vPvB:** Not applicable.

SECTION 3: Composition/information on ingredients

- 3.1 Chemical characterisation: Substances

- CAS No. Designation:

Levothyroxine sodium (INNm.L3.D)

- Identification number(s):

- **EC number:** 685-634-1

SECTION 4: First aid measures

- 4.1 Description of first aid measures

- General information

Instantly remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- After inhalation

Supply fresh air or oxygen; call for doctor.

In case of unconsciousness bring patient into stable side position for transport.

- After skin contact

Instantly wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

- After eye contact

Rinse opened eye for several minutes (10 - 15) under running water. Then consult doctor.

Use eye protection.

- After swallowing

Instantly call for doctor.

Rinse out mouth and then drink plenty of water (200 - 300 ml).

- 4.2 Most important symptoms and effects, both acute and delayed

Headache

Diarrhea

Vomiting

Fever

Profuse sweating

(Contd. on page 3)

Trade name: Levothyroxine sodium (BP, USAN, USP)

(Contd. of page 2)

hot flashes

Muscular symptoms

Spasms, convulsions

Tremor

Tachycardia

Palpitation

Anxiety

Sleep disturbances

- **Information for doctor** Pharmacological group:

- **Danger** Danger of disturbed cardiac rhythm.

- **4.3 Indication of any immediate medical attention and special treatment needed**

If swallowed, gastric irrigation with added, activated carbon.

No specific antidote available. Treat symptomatically and supportively.

Medical supervision for at least 48 hours

SECTION 5: Firefighting measures

- **5.1 Extinguishing media**

- **Suitable extinguishing agents**

CO₂, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam.

- **For safety reasons unsuitable extinguishing agents** Do not use a heavy water stream.

- **5.2 Special hazards arising from the substance or mixture**

Formation of toxic gases is possible during heating or in case of fire.

Can be released in case of fire

metal fumes

Carbon monoxide (CO), carbon dioxide (CO₂)

Nitrogen oxides (NO_x)

Hydrogen iodide (HI)

Iodide

- **5.3 Advice for firefighters**

- **Protective equipment:**

Wear self-contained breathing apparatus.

Do not inhale explosion gases or combustion gases.

Wear full protective suit.

- **Additional information**

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

SECTION 6: Accidental release measures

- **6.1 Personal precautions, protective equipment and emergency procedures**

Wear protective equipment (described in section 8). Keep unprotected persons away.

Avoid causing dust.

Do not inhale dust.

Avoid contact with substance.

- **6.2 Environmental precautions:** Do not allow to enter drainage system, surface or ground water.

- **6.3 Methods and material for containment and cleaning up:**

Dispose of contaminated material as waste according to item 13.

Collect mechanically.

Ensure adequate ventilation.

Send for recovery or disposal in suitable containers.

- **6.4 Reference to other sections**

See Section 7 for information on safe handling

See Section 8 for information on personal protection equipment.

See Section 13 for information on disposal.

Trade name: Levothyroxine sodium (BP, USAN, USP)

(Contd. of page 3)

SECTION 7: Handling and storage

- 7.1 Precautions for safe handling

Thorough dedusting.

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of dust.

Work only in fume cupboard.

Waste air is to be released into the atmosphere only via suitable separators.

- Information about protection against explosions and fires: No special measures required.

- 7.2 Conditions for safe storage, including any incompatibilities

- Storage

- Requirements to be met by storerooms and containers: No special requirements.

- Information about storage in one common storage facility: Not required.

- Further information about storage conditions:

Protect from the effects of light.

Protect from humidity and keep away from water.

Keep container tightly closed.

- Recommended storage temperature:

Store at 2-8 °C.

cooled transportation at 5 +/- 3 °C

- Storage class VCI class 13

- 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.

- 8.1 Control parameters

- Components with limit values that require monitoring at the workplace: Not required.

- DNELs (Derived no-effect level) No information available

- PNECs (predicted no effect concentration) No information available

- Additional information:

The lists that were valid during the compilation were used as basis.

OEL (Pfizer): 0.6 µg/m³ (Levothyroxin)

OEL (SANDOZ): 1 µg/m³ (Levothyroxin Natrium)

MSDS BEDFORD LABORATORIES: 2 µg/m³

- 8.2 Exposure controls

- Personal protective equipment

- General protective and hygienic measures

The usual precautionary measures should be adhered to general rules for handling chemicals.

Keep away from foodstuffs, beverages and food.

Wash hands during breaks and at the end of the work.

Avoid contact with the eyes and skin.

Do not inhale dust

- Breathing equipment: Use breathing protection only if dust is formed.

- Recommended filter device for short term use:

Filter P3

- Protection of hands:

Protective gloves (EN 374).

(Contd. on page 5)

Trade name: Levothyroxine sodium (BP, USAN, USP)

(Contd. of page 4)

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

To avoid skin problems reduce the wearing of gloves to the required minimum.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

- Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Eye protection:

Safety glasses

- Body protection: Protective work clothing.

SECTION 9: Physical and chemical properties

- 9.1 Information on basic physical and chemical properties

- General Information

- Appearance:

Form: Crystalline powder

Colour: Cream coloured

- Odour: Odourless

- Taste: tasteless

- pH-value at 20 °C: 8.5 - 9.0 (Sat. aq. Solution)

- Change in condition

Melting point/Melting range: 207 - 210 °C

Boiling point/Boiling range: Not determined

- Flash point: Not applicable

- Inflammability (solid, gaseous) Product is not inflammable.

- Ignition temperature:

Decomposition temperature: > 100 °C

langsame Zersetzung

- Danger of explosion: Product is not explosive.

Fine particles (such as dust and mists) may fuel fires/explosions.

- Critical values for explosion:

Lower: Not determined.

Upper: Not determined.

- Vapour pressure: Not applicable.

- Density at 20 °C: 2.381 g/cm³

- Solubility in / Miscibility with

Water at 25 °C: 0.15 g/l

- Organic solvents: Soluble in many organic solvents

abs. Ethanol

- Partition coefficient (n-octanol/water): 4.099 log POW (Levothyroxin)

- Viscosity:

dynamic: Not applicable.

kinematic: Not applicable.

(Contd. on page 6)

Trade name: Levothyroxine sodium (BP, USAN, USP)

(Contd. of page 5)

- 9.2 Other information

No further relevant information available.

SECTION 10: Stability and reactivity

- **10.1 Reactivity** No further relevant information available.
- **10.2 Chemical stability**
- **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
- **10.3 Possibility of hazardous reactions** No dangerous reactions known
- **10.4 Conditions to avoid** No further relevant information available.
- **10.5 Incompatible materials:** Strong oxidizing materials
- **10.6 Hazardous decomposition products:** No dangerous decomposition products known

SECTION 11: Toxicological information

- **11.1 Information on toxicological effects**
- **Acute toxicity** Based on available data, the classification criteria are not met.

- LD/LC50 values that are relevant for classification:

55-03-8 Levothyroxin natrium (INN.L3.D, ASK)		
Oral	LD50	10 000 mg/kg (Rat)
	TDL _o	0.020 mg/kg (chd)
		0.117 mg/kg (Woman)
6106-07-6 Levothyroxine sodium salt pentahydrate		
	scu LD50	50 mg/kg (Rat)

- **Primary irritant effect:**
- **Skin corrosion/irritation** No irritant effect known.
- **Serious eye damage/irritation** No irritant effect known.
- **Respiratory or skin sensitisation** Based on available data, the classification criteria are not met.
- **Subacute to chronic toxicity:**
- **Carcinogenicity** No information available
- **Genetic Toxicity** No information available
- **Reproductive Effects** No information available
- **Teratogenic effect** No information available
- **Mutagen effect** No information available
- **Additional toxicological information:**
No data for acute toxicity available.
Dangerous properties can not be excluded.
- **CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)**
- **Germ cell mutagenicity** Based on available data, the classification criteria are not met.
- **Carcinogenicity** Based on available data, the classification criteria are not met.
- **Reproductive toxicity**
Suspected of damaging fertility or the unborn child.
- **STOT-single exposure** Based on available data, the classification criteria are not met.
- **STOT-repeated exposure**
Causes damage to organs through prolonged or repeated exposure.
- **Aspiration hazard** Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

- **12.1 Toxicity**
- **Aquatic toxicity:** No further relevant information available.
- **12.2 Persistence and degradability** No further relevant information available.
- **12.3 Bioaccumulative potential**
High bioaccumulation potential.

(Contd. on page 7)

Trade name: Levothyroxine sodium (BP, USAN, USP)

(Contd. of page 6)

Bioaccumulation is to be expected (Segregation coefficient (n-octanol/water): 4.099 (Lecothyroxin))

- **12.4 Mobility in soil** No further relevant information available.

- **Additional ecological information:**

Adverse ecological effects cannot be excluded in the event of improper handling or disposal.

- **General notes:**

At present there are no ecotoxicological assessments.

Water danger class 3 (German Regulation) (Self-assessment): extremely hazardous for water.

Do not allow product to reach ground water, water bodies or sewage system, even in small quantities.

- **12.5 Results of PBT and vPvB assessment** No information available.

- **12.6 Other adverse effects** No further relevant information available.

SECTION 13: Disposal considerations

- **13.1 Waste treatment methods**

- **Recommendation**

Hand over to disposers of hazardous waste.

Chemicals must be disposed of in compliance with restrictive national regulations.

- **Uncleaned packagings:**

- **Recommendation:**

Disposal must be made according to official regulations.

Packaging must be disposed of in compliance with country-specific regulations or must be passed to a packaging return system.

SECTION 14: Transport information

- **14.1 UN-Number**

- **ADR, ADN, IMDG, IATA** Void

- **14.2 UN proper shipping name**

- **ADR** Void

- **ADN, IMDG, IATA** Void

- **14.3 Transport hazard class(es)**

- **ADR, ADN, IMDG, IATA**

- **Class** Void

- **14.4 Packing group**

- **ADR, IMDG, IATA** Void

- **14.5 Environmental hazards:** Not applicable.

- **14.6 Special precautions for user** Not applicable.

- **14.7 Transport in bulk according to Annex II of Marpol and the IBC Code** Not applicable.

- **Transport/Additional information:** Not dangerous according to the above specifications.

- **ADR**

- **Remarks:** No dangerous material according to the above regulation.

- **IATA**

- **Remarks:** No dangerous material according to the above regulation.
Cooled transportation 2-8 °C

- **UN "Model Regulation":** Void

GB

(Contd. on page 8)

Trade name: Levothyroxine sodium (BP, USAN, USP)

(Contd. of page 7)

SECTION 15: Regulatory information

- **15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**
- **Labelling according to Regulation (EC) No 1272/2008**
The substance is classified and labelled according to the CLP regulation.
- **Hazard pictograms**

GHS08

- **Signal word** Danger
- **Hazard statements**
H361 Suspected of damaging fertility or the unborn child.
H372 Causes damage to organs through prolonged or repeated exposure.
- **Precautionary statements**
P201 Obtain special instructions before use.
P260 Do not breathe dust/fume/gas/mist/vapours/spray.
P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/clinic
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P361 Take off immediately all contaminated clothing.
P405 Store locked up.
- **National regulations**
- **Information about limitation of use:**
Employment restrictions concerning young persons must be observed.
Employment restrictions concerning pregnant and lactating women must be observed.
- **Water hazard class:** Water danger class 3 (Self-assessment): extremely hazardous for water.
- **15.2 Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- **Reason for alteration** Changing of labelling (Chapter 15).
- **Department issuing data specification sheet:**
- **Contact:**

Dept. EHS (Environmental Health and Safety)

- **Abbreviations and acronyms:**

RID: Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations Concerning the International Transport of Dangerous Goods by Rail)
ICAO: International Civil Aviation Organisation
ims: intramuscular
ipr: intraperitoneal
ivn: intravenous
scu: subcutaneous
LCx: Lethal concentration, x percent kill
LDx: Lethal dose, x percent kill
LCLo: Lowest published lethal concentration
LDLo: Lowest published lethal dose
TCLo: Lowest published toxic concentration
TDLo: Lowest published toxic dose
NOEL: No effect level
NOEC: No observed Effect Concentration
NOAEL: No observed adverse effect level
LOAEL: Low adverse effect level
LOEL: Lowest Observed Effect Level
MTD: Maximum tolerated dose

(Contd. on page 9)

Trade name: Levothyroxine sodium (BP, USAN, USP)

(Contd. of page 8)

MIC: Minimal inhibitory concentration is the lowest concentration of drug that inhibits more than 99% of the bacterial population
IC50: The IC50 (Inhibitory Concentration) is a measure of the effectiveness of a compound in inhibiting biological or biochemical function. This quantitative measure indicates how much of a particular drug or other substance is needed to inhibit a given biological by half.

Other percentage values (IC10, IC20, etc.) are sometimes used.

EC50: Concentration of a material in water, a single dose which is expected to cause a biological effect on 50% of a group of test animals.

Other percentage values (EC25, EC40, etc) are sometimes used.

LOEC: Lowest Observed Effect Concentration

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and Labelling of Chemicals

EINECS: European Inventory of Existing Commercial Chemical Substances

CAS: Chemical Abstracts Service (division of the American Chemical Society)

DNEL: Derived No-Effect Level (REACH)

PNEC: Predicted No-Effect Concentration (REACH)

LC50: Lethal concentration, 50 percent

LD50 - Median Lethal Dose

PBT: Persistent, Bioaccumulative and Toxic

vPvB: very Persistent and very Bioaccumulative

Repr. 2: Reproductive toxicity – Category 2

STOT RE 1: Specific target organ toxicity (repeated exposure) – Category 1
